WHAT IS DESKTOP ON DEMAND?

DOD™

www.desktopondemand.com

A plain *(48 word, jargon-free)* English explanation.

Desktop on Demand is a Hosted Desktop solution that enables you to access your desktop on a wide range of devices, giving you the freedom to work anytime from anywhere in the world. It works just like the desktop on your office PC and is delivered to you in exactly the same way, but with all of the benefits of a cloud-based solution

YOUR DATA IS SAFE & SECURE

All of your data is fully secured using industry standard SSL encryption, commonly used for online banking and secure transactions.

WE'VE GOT YOUR BACK

Regular backups to the cloud ensure that your business can operate as normal in the event of a disaster. You'll be back up and running in no time.

EASY TO SWITCH

We have a dedicated team ready to make your flight into the clouds as smooth as possible.

Did you know we can also move all of your existing business applications into the cloud too? So it will be just like using your desktop PC in the office.

FLIP OVER
The benefits are endless
...and we only have one side of A4 to show you some of the best features! So why not get in touch with one of our cloud experts or sign-up to a live demo online?

THE BENEFITS
ARE ENDLESS

WORK FROM ANYWHERE

Connect to your desktop via your favourite device, including tablets and smartphones, from anywhere in the world and at anytime.

SAFE & SECURE

Your data sits in our hugely powerful UK data centres, which is fully secured using standard SSL encryption and fully managed by our ISO 27001 accredited technical team.

REDUCE IT EXPENDITURE

Replace costly capital expenditure on new servers and existing IT costs with a lower fixed-rate subscription.

BESPOKE INTEGRATION

Industry-specific or your own custom applications can be integrated and ready to use with our hosted desktop solutions.

+ much more
